

## Take Things As They Come

When you buy soda biscuit in a paper bag, take them as they come; stale—soggy—spoiled.

Don't blame the baker  
Don't blame the grocer.  
Don't blame anyone but yourself.

When you buy **Uneeda Biscuit** look for the In-er-seal—the famous red and white trade-mark design that identifies the package which keeps them fresh—clean—good.

Credit the baker for baking them.  
Credit the grocer for keeping them.  
Credit yourself for buying them.

## CITIZENS OF PRATT COUNTY

Lay a Practical Scheme Before  
Wichita People.

FOR INCREASED TRADE

Mr. Brown of Naron Writes  
Strong Appeal.

CO-OPERATION IS NEEDED

To Secure Extension of Missouri Pacific Road.

William F. Brown, of Pratt county—known from his long legislative career as "Brown of Pratt"—has written an open letter to the people of Wichita with reference to a railroad—a letter that is worth reading and studying. Mr. Brown is no dreamer. He is a practical farmer of splendid intelligence and the rare gift of common sense. He is reliable in every respect, and has an honest purpose to serve himself and his neighbors as well as helping Wichita. It looks as if this city ought to sincerely interest itself in his proposition. The farmers of the section he names are in the legitimate trade territory of this city. They are as good farmers and citizens as are in the state. They have built their homes and schools and churches in the strip of land he designates and defines, and there is no reason why Wichita people should not help them in any way possible. It would be more than helping them; it would be helping Wichita, and when two birds can be killed by throwing one stone the Peerless Princes ought to take aim at once. The following is Mr. Brown's letter:

"To the Business Men of Wichita: 'Gentlemen:—There is a scope of country lying in the southwest part of Pratt county, and the southeast part of Edwards county, known as the Rattlesnake valley, occupying a territory about 16 miles wide and from 20 to 35 miles long, and which is now one of the most fertile and productive portions of southern Kansas. In 1901 this territory raised 1,500,000 bushels of wheat and about 500,000 bushels of corn. It owned about 50,000 head of cattle and its full quota of horses, hogs and mules. This valley is bordered on the north by a range of heavy sand hills and the Santa Fe railroad, and on the south by an almost impassable barrier of sand hills, and the Rock Island railroad passes south of this range of hills, and our people, to find a market for their produce, must pass over either the one or the other of these ranges of hills.

"There is at this time about 3,000 people occupying this valley, and nowhere in Kansas are the farmers more prosperous than here. But the greatest task of the year is the one that comes with the marketing of our grain.

"Gentlemen, imagine a farmer with a crop of 8,000 bushels of wheat on his hands that must be hauled from 12 to 20 miles through heavy sand, and you will understand something of the difficulty that confronts us. Give us an outlet and our population will double inside of three years and will increase over 50 per cent inside of one year. We have a well established reputation. Our wheat stands second to none in Kansas for milling purposes, and there has not been a total failure of corn here in twenty-five years. The hills bordering us on the north and south afford an abundance of pasture of the very best. Water is abundant at from 10 to 40 feet in depth. Our one great drawback is our distance from any market.

"The Larned branch of the Missouri Pacific railroad has a spur that leaves the main line at Alcot, in Kingman county, and ends at Iuka, in Pratt county. Iuka is within 10 miles of our extreme eastern border, and by extending this line 25 miles from Iuka north and west it would split this valley, would give the road a monopoly of the business, and gentlemen of Wichita, it would make this rich valley a tributary

"Let the GOLD DUST  
twins do your work."

The overworked housewife should call

## GOLD DUST

to the rescue. It will shorten her work and lengthen her leisure. Cleans everything cleanable from cellar to attic—dishes and clothes, pots and pans, floors and doors.

Housework is hard work without GOLD DUST—the modern cleanser; better and more economical than soap. Made only by THE N. K. FAIRBANK COMPANY. Chicago, New York, Boston, St. Louis—Makers of OVAL FAIRY SOAP.
